Synopsis: The proposed procurement is Unrestricted; NAICS 237110 with a small business size standard not to exceed \$31.0 million average annual receipts over the preceding three fiscal years. Solicit and Award one contract for McMillan Filter Media and Valve Replacement project. Work includes but is not limited to the following. Provide spot repairs of concrete filter boxes, replace twelve 24" flow control valves with butterfly valves and replace the actuators with electric actuators, replace the existing surface wash supply piping and agitators inside all twelve filters, replace twelve of the existing backwash troughs with new fiber glass backwash troughs, replace the filter media, provide repair or replacement of filter underdrain blocks, and improve the lighting in the filter gallery. The Construction duration of this project solicitation will be 426 days.

Large business firms are required to submit a subcontracting plan with their proposals. The Small Business subcontracting goal for this procurement is 51.2% of the total subcontracting dollar value. Of that 51.2%, 8.8% should be placed with Small Disadvantaged Businesses including 8(a) award, 7.3% with Women Owned Small Businesses, 3.1% with HUB Zone Businesses, 1.50% with Service Disabled Veteran Owned Small businesses.

All responsible sources may submit a bid which shall be considered by the agency. The solicitation will be provided in an electronic format, free of charge, to all authenticated account holders of Federal Technical Data Solution System (FedTeDS)—a one-time registration process for vendors/contractors—Accounts may only be attained by CCR-registered contractors/vendor, go to www.fedteds.gov for additional information. Plans and specifications will not be available in paper format.
