Special Public Notice #01-050  
Comment Period : August 17, 2001 to September 24, 2001

Date August 17, 2001

---

## NATIONWIDE PERMIT REISSUANCE REQUEST FOR COMMENTS AND PUBLIC HEARING

On August 9, 2001 the U.S. Army Corps of Engineers published its proposal to reissue the Nationwide Permits (NWP) in the Federal Register/Vol.66, No.154/pages 42070 to 42100. Thursday, August 9, 2001/Notices.

The U.S. Army Corps of Engineers Headquarters Office will conduct a public hearing in Washington, D.C., on September 12, 2001, at the GAO Building, 7<sup>th</sup> floor auditorium. The intent of this hearing is to solicit public comments; both oral and written, on the NWP Program as a whole or on individually proposed NWPs on a national level. The public record for this hearing will conclude at close of business September 22, 2001. This date is separate from the Federal Register notice closing date for the receipt of written comments. For further information on the hearing or the proposed NWPs, please contact Mr. Rich White at (202) 761-4599, or Mr. Sam Collinson, at (202) 761-4594.

NWPs are general permits issued on a nationwide basis to authorize minor activities with minimal evaluation time. Some activities authorized by NWPs require pre-construction notification to the District Engineer prior to commencement of work. This notification requirement to the District Engineer is necessary to ensure that activities authorized by these NWPs have minimal individual and cumulative adverse impacts on the aquatic environment.

This notice is the public's opportunity to comment on the proposed re-issuance and modification of existing NWPs and conditions. Comments on national issues relating to these NWPs should be sent to the GAO Building, Office of the Chief of Engineers, Regulatory Branch (ATTN: CECW-OR), 441 G Street, N.W., Washington, D.C. 20314-1000. Comments on the proposed new and modified NWPs are due by September 24, 2001.

In addition to the NWP general conditions, Division Engineers are authorized to add regional conditions specific to the needs and/or requirements of a particular region or State. Regional conditions are an important mechanism to ensure that impacts to the aquatic environment authorized by the NWPs are minimal, both individually and cumulatively. Division Engineers may also suspend or revoke specific NWPs in certain geographic areas (e.g., States or watersheds) or high-value aquatic systems where impacts authorized by those NWPs may be more than minimal. Regional conditions, applicable in the

Commonwealth of Pennsylvania, the State of Maryland, and the District of Columbia were developed with the re-issuance of the NWP's in 1996 and again with the introduction of new and modified NWP's in 2000. These

regional conditions will be reevaluated for consideration for the current NWP's proposed for re-issuance and modification. The Baltimore District is seeking comments on the existing regional conditions and the need for additional regional conditions to help ensure that impacts authorized by the proposed NWP's are minimal. These existing regional conditions can be reviewed at

<http://www.nab.usace.army.mil/permits/regionalconditions.htm>. In response to the comments received on regional conditions, an additional public notice, announcing any additional proposed regional conditions will be published. When the Division Engineer approves regional conditions, those regional conditions become effective when the final NWP's public notice is announced. Unless otherwise noted, all proposed regional conditions applicable for activities in the Commonwealth of Pennsylvania, the State of Maryland, and the District of Columbia. We anticipate suspending many of these NWP's in Maryland and Pennsylvania which are duplicative of the State Programmatic General Permits, which are in place. Comments on regional issues pertinent to the proposed NWP's and regional conditions should be sent to Mr. George Harrison, USACE, Baltimore District, CENAB-OP-RMS, P.O. Box 1715, Baltimore, Maryland 21203-1715. Comments are due by close of business September 24, 2001. Similar public notices proposing regional conditions in other regions or States are being published concurrently by other division or district offices.

For those NWP's that result in a discharge into waters of the United States, individual Tribal or State Section 401 Water Quality Certification or waiver is required. Additionally, State Coastal Zone Management Act consistency concurrence or waiver is required for those NWP activities within or affecting the State's Coastal Zone. The Corps believes, in general, that these NWP's comply with State Water Quality Certification standards and are consistent with State Coastal Zone Management Plans. However, Corps Districts are working individually with the appropriate State or Tribal agencies to identify and resolve any issues before finalizing these NWP's.

Provisional determinations, including environmental documents, have been prepared indicating that these NWP's comply with the requirements for issuance under general permit authority. These documents, as well as the proposed NWP's and public hearing information, are available for viewing on the Internet at the addresses listed below.

The Corps will prepare final decision documents when the NWP's are issued or modified. These documents will be available as indicated in the preceding paragraph. Furthermore, the NWP decision documents will be supplemented by Division Engineers to address their decision concerning regional conditions of the NWP's

Enclosed is an index of the proposed NWP's and conditions. Anyone wishing to provide comments may obtain a full text copy of the NWP's through the Corps Home Page or GPO Federal Register address listed below. If you wish to have a copy of the full text of the NWP's, please call Mr.

Harrison at (410) 962-6002.

For the District Engineer

Linda A. Morrison  
Chief, Regulatory Branch

## *Index of Nationwide Permits, Conditions, Further Information, and Definitions*

### *Proposed Nationwide Permits*

1. Aids to Navigation
2. Structures in Artificial Canals
3. Maintenance
4. Fish and Wildlife Harvesting, Enhancement, and Attraction Devices and Activities
5. Scientific Measurement Devices
6. Survey Activities
7. Outfall Structures and Maintenance
8. Oil and Gas Structures
9. Structures in Fleeting and Anchorage Areas
10. Mooring Buoys
11. Temporary Recreational Structures
12. Utility Line Activities
13. Bank Stabilization
14. Linear Transportation Projects\*
15. U.S. Coast Guard Approved Bridges
16. Return Water From Upland Contained Disposal Areas
17. Hydropower Projects
18. Minor Discharges
19. Minor Dredging
20. Oil Spill Cleanup
21. Surface Coal Mining Activities\*
22. Removal of Vessels
23. Approved Categorical Exclusions
24. State Administered Section 404 Programs
25. Structural Discharges
26. *RESERVED*
27. Stream and Wetland Restoration Activities\*
28. Modifications of Existing Marinas
29. Single-family Housing
30. Moist Soil Management for Wildlife
31. Maintenance of Existing Flood Control Facilities\*
32. Completed Enforcement Actions
33. Temporary Construction, Access and Dewatering
34. Cranberry Production Activities
35. Maintenance Dredging of Existing Basins
36. Boat Ramps
37. Emergency Watershed Protection and Rehabilitation\*
38. Cleanup of Hazardous and Toxic Waste

39. Residential, Commercial, and Institutional Developments\*
40. Agricultural Activities\*
41. Reshaping Existing Drainage Ditches
42. Recreational Facilities\*
43. Stormwater Management Facilities\*
44. Mining Activities

***Nationwide Permit General Conditions***

1. Navigation
2. Proper Maintenance
3. Soil Erosion and Sediment Controls
4. Aquatic Life Movements\*
5. Equipment
6. Regional and Case-by-Case Conditions
7. Wild and Scenic Rivers
8. Tribal Rights
9. Water Quality\*
10. Coastal Zone Management
11. Endangered Species
12. Historic Properties
13. Notification\*
14. Compliance Certification
15. Use of Multiple Nationwide Permits.
16. Water Supply Intakes
17. Shellfish Beds
18. Suitable Material
19. Mitigation\*
20. Spawning Areas
21. Management of Water Flows\*
22. Adverse Effects from Impoundments
23. Waterfowl Breeding Areas
24. Removal of Temporary Fills
25. Designated Critical Resource Waters
26. Fills Within 100-year Floodplains\*
27. Construction Period \*
