

Chopawamsic Troop Training Site, VA

**U.S. ARMY CORPS OF ENGINEERS
FACT SHEET as of February 1, 2015**

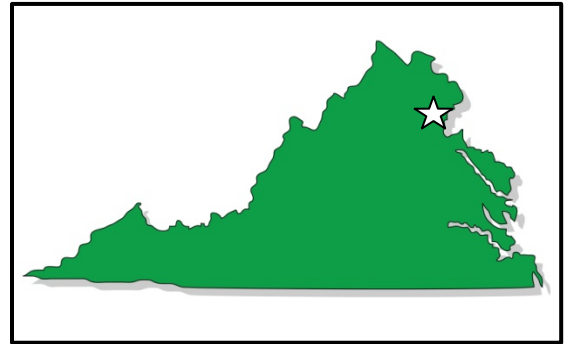

BUILDING STRONG®

AUTHORIZATION: Defense Environmental Restoration Program

TYPE OF PROJECT: Formerly Used Defense Site (FUDS)

PROJECT PHASE: Military Munitions Response Program (MMRP) Site Inspection and Remedial Investigation/Feasibility Study (future)

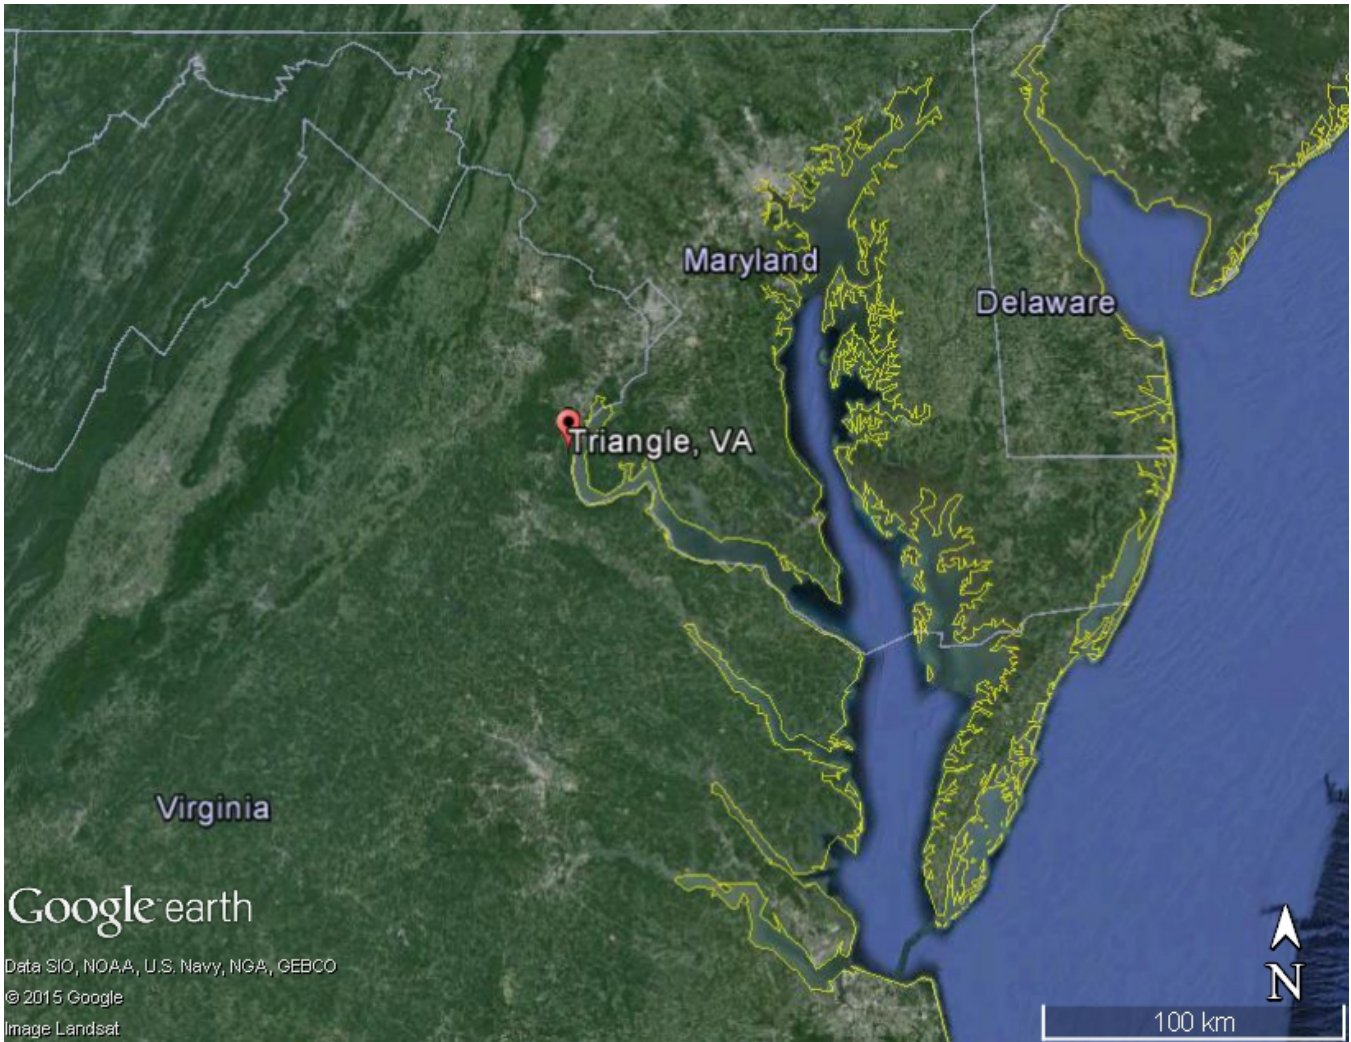

CONGRESSIONAL INTEREST: Senators **Kaine** and **Warner (VA)** and Representative **Wittman (VA-01)**

BACKGROUND: This 11,011-acre site is now known as the Prince William Forest National Park, located in Triangle, Virginia. The site was used during WWII by the Office of Strategic Services for training counterintelligence agents. The property may contain military munitions which may present a safety risk. The site is now used for recreation and as a forest preserve.

STATUS: A site inspection (SI) under the Military Munitions Response Program (MMRP) was completed in 2007. The SI recommended a Remedial Investigation/Feasibility Study (RI/FS) for the possible presence of munition items. Due to funding limitations and the prioritization of activities on ongoing higher priority sites, the RI/FS effort is scheduled to commence in FY2020.

For more information regarding the Chopawamsic Troop Training Site FUDS project, please contact Ed Hughes, CENAB-EN-H, (410) 962-4937, e-mail edward.t.hughes@usace.army.mil.
