

Joint Base Myer-Henderson Hall

Fort Albert J. Myer, Arlington, VA, Archibald Henderson Hall, Arlington VA,
Fort Leslie J. McNair, Washington D.C

U.S. ARMY CORPS OF ENGINEERS

BUILDING STRONG®

FACT SHEET as of February 2015

Background: Fort Myer traces its origin as a military post to the Civil War. Historically it has been an important Signal Corps post and a showcase for Army cavalry. The post parade ground (Summerall Field) was the site of the first flight of an aircraft at a military installation. Fort Myer has been the home of Army chiefs of staff for a century and, today, is home for service members working throughout the Military District of Washington and the National Capital Region.

Fort McNair sits on 28 acres of land, formerly known as Greenleaf Point, where the Potomac and Anacostia rivers join in Washington, D.C. The military reservation was established in 1791, third only to West Point and Carlisle Barracks in length of service. Maj. Pierre C. L'Enfant included it in his plans for Washington, the Federal City, as a major site for the defense of the capital.

Fort McNair is host to the Military District of Washington and National Defense University.

Henderson Hall encompasses 22.3 acres of land located in Arlington, Virginia. The facility dates back to World War II and the move of Headquarters, U.S. Marine Corps to the Navy Annex Building on November 10, 1941. It provides barracks and support for Marines assigned to Headquarters, U.S. Marine Corps as well as certain schools and agencies within the Washington, DC Metropolitan Area.

In 2009, the Fort Myer Military Community and the adjacent Marine Corps Facility Henderson Hall were consolidated into a single facility, Joint Base Myer-Henderson Hall.

Key Points of Contact:

Congressional Representative (VA-8 th)	James P. Moran, Jr. (D)	
Congressional Representative (DC)	Eleanor Holmes Norton (D)
