

**DCPS Capital Improvement Program
Fact Sheet 17 September, 2003**

**Phelps Vocational H.S.
704 26th Street, N.E.
Renovation**

Background:

Phelps Senior High school is a 136,000 square foot school constructed in 1934 with a 1974 addition. The school capacity is 570 students with a current enrollment of 435. The school was identified and approved for modernization in 2000. In late fall 2000 a site specific educational specification and feasibility study was initiated for Phelps.

A campus-wide site plan is now under consideration to develop program requirements at all four adjacent schools prior to finalizing a feasibility study for Phelps.

The planned modernized school is not yet programmed.

Status:

This school is currently in the pre-design phase. Site specific educational specifications are complete. Draft feasibility study is complete. Development of a campus-wide master plan is in planning stage and will be performed by the University of Michigan. The designer is Sorg and Associates of Washington, D.C.
