**Notice of Availability  
Draft Environmental Assessment (EA)  
and Draft Finding of No Significant Impacts (FONSI)  
Pennsylvania Pipeline Project  
Crossing of United States Army Corps of Engineers' (USACE) properties at  
Loyalhanna Lake, Conemaugh River Lake, and Raystown Lake**

US Army Corps of Engineers has prepared a Draft Environmental Assessment (EA) and Draft Finding of No Significant Impact (FONSI) to evaluate an easement agreement allowing Sunoco Pipeline, Limited Partnership (SPLP) to construct and operate a five (5) mile pipeline through USACE owned/administered properties at Loyalhanna Lake, Conemaugh River Lake, and Raystown Lake, parallel to and adjacent to SPLP's existing rights-of-way (ROWs) and parallel to and adjacent other utility ROWs. The results, as found in the Draft EA, show that the Proposed Action would not have significant adverse impact to the environment. At the conclusion of the public comment period, it is anticipated that a FONSI would be appropriate and would be signed for the Proposed Action. An Environmental Impact Statement; therefore, is not necessary to implement the Proposed Action.

An electronic version of the Draft EA and Draft FONSI are available online at:

- USACE Baltimore District Public Website: <http://www.nab.usace.army.mil/Home/Public-Notices/Ops-Public-Notices/>

Hardcopy versions of the documents can be found at the following locations:

- Huntingdon County Library: 330 Penn Street, Huntingdon, PA 16652, Phone: (814) 643-0200.
- USACE Raystown Lake Administrative Building: 6145 Seven Points Road, Hesston PA 16647, Phone: (814) 658-6803.
- Indiana Free Library: 845 Philadelphia Street, Indiana, PA 15701, Phone: (724) 465-8841.
- Adams Memorial Library: 1112 Ligonier Street, Latrobe, PA 15650, Phone (724) 537-2821.
- Ligonier Valley Public Library: 120 W Main Street, Ligonier, PA 15650, Phone (724) 238-6451.
- Blairsville Public Library: 113 N Walnut Street, Blairsville, PA 15717, Phone (724) 459-6077.
- Greensburg-Hempfield Area Public Library: 237 S. Pennsylvania Avenue, Greensburg, PA 15601, Phone (724) 837-5620.
- USACE Conemaugh Lake Administration Building: 1665 Auen Road, Saltsburg, PA 15681, Phone: (724) 459-7240.
- USACE Loyalhanna Lake Administration Building: 440 Loyalhanna Dam Road, Saltsburg, PA 15681, Phone: (724) 639-9013.

Comments on the Draft EA and Draft FONSI may be submitted to the Baltimore District Corporate Communication Office either by mail to 10 S. Howard Street, ATTN: CCO Room 11400, Baltimore, MD, 21201 or by email to [cenab-cc@usace.army.mil](mailto:cenab-cc@usace.army.mil) no later than 30 days from the 11 October, 2016, which was the publication date of this notice.

**DEPARTMENT OF THE ARMY  
BALTIMORE DISTRICT, CORPS OF ENGINEERS  
10 S. HOWARD STREET  
BALTIMORE, MD 21201**

**JUN 02 2016**

Operations Division

Mr. Chester L. Brooks Jr.  
Chief, Delaware Tribe of Oklahoma  
5100 Tuxedo Blvd  
Bartlesville, OK 74006-2838

Dear Mr. Brooks:

The U.S. Army Corps of Engineers (Corps) is in receipt of a permit application for the proposed Pennsylvania Pipeline Project (Project) extending from Houston, in Washington County, to the Marcus Hook Facility in Delaware County, Pennsylvania. The purpose of the Project is to interconnect with the existing Mariner East Pipelines, which will increase natural gas liquid transportation up to 350,000 barrels per day. The applicant for this project is Sunoco Pipeline, L.P. (SPLP).

The proposed Project route will cross the areas of responsibility (AOR) for the Corps districts in Pittsburgh, Baltimore, and Philadelphia. Each Corps district will review and make a permit decision within their respective AOR; however, Ms. Nicole Cooper Minnichbach will be your contact for any tribal concerns over the entire Project.

The Project involves the installation of two parallel pipelines within a 50-foot-wide right-of-way. The first is a 20-inch diameter pipeline proposal from Houston to Marcus Hook (306 miles). The second line is proposed from SPLP's Delmont Station, in Westmoreland County, Pennsylvania, to the Marcus Hook facility, paralleling the initial line for approximately 255 miles.

The Project will be reviewed under Section 106 of the National Historic Preservation Act of 1966, as amended (NHPA), pursuant to the Corps implementing regulations found at 33 CFR Part 325 Appendix C. Although we have not yet determined the extent of our Section 106 scope of analysis, or Permit Area, we expect that the proposed Project will impact Waters of the US (WOUS) regulated by Corps and will require authorization under Section 10 of the River and Harbors Act (33 U.S.C. Part 401 et. Seq.) and Section 404 of the Clean Water Act (33 U.S.C. Part 1344).

The proposed Project may also require permission to modify or alter locally or federally maintained Corps Civil Works projects such as existing flood control reservoirs and/or levee facilities. The authority to grant permission for temporary or permanent

alterations to a Corps federally authorized civil works project is contained in Section 14 of the Rivers and Harbors Act and codified in 33 U.S.C. 408 (Section 408). The portions of the Project that will be subject to Section 408 evaluation will be reviewed under Section 106 of the NHPA pursuant to the Advisory Council on Historic Preservation's implementing regulations found at 36 CFR Part 800.

We plan to coordinate on the Project pursuant to both Section 404 of the Clean Water Act and Section 408 as we receive additional information. However, please note that our respective reviews under Section 404 and Section 408 will be coordinated separately and result in independent decisions pursuant to Corps regulations.

This letter and request for participation has been provided to the following federally recognized Tribal Nations:

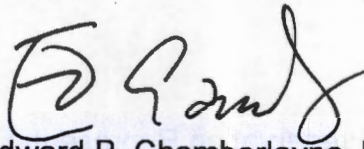

Absentee Shawnee Tribe of Oklahoma  
Cayuga Nation of New York  
Delaware Nation  
Delaware Tribe of Oklahoma  
Eastern Shawnee Tribe of Oklahoma  
Narragansett Indian Tribe  
Oneida Tribe of Indians of Wisconsin

**DEPARTMENT OF THE ARMY  
BALTIMORE DISTRICT, CORPS OF ENGINEERS  
10 S. HOWARD STREET  
BALTIMORE, MD 21201**

**JUN 02 2016**

Operations Division

Mr. Dan Collins  
Chairman, Shinnecock Indian Nation Tribal Office  
PO Box 5006  
Southampton, NY 11969

Dear Mr. Collins:

The U.S. Army Corps of Engineers (Corps) is in receipt of a permit application for the proposed Pennsylvania Pipeline Project (Project) extending from Houston, in Washington County, to the Marcus Hook Facility in Delaware County, Pennsylvania. The purpose of the Project is to interconnect with the existing Mariner East Pipelines, which will increase natural gas liquid transportation up to 350,000 barrels per day. The applicant for this project is Sunoco Pipeline, L.P. (SPLP).

The proposed Project route will cross the areas of responsibility (AOR) for the Corps districts in Pittsburgh, Baltimore, and Philadelphia. Each Corps district will review and make a permit decision within their respective AOR; however, Ms. Nicole Cooper Minnichbach will be your contact for any tribal concerns over the entire Project.

The Project involves the installation of two parallel pipelines within a 50-foot-wide right-of-way. The first is a 20-inch diameter pipeline proposal from Houston to Marcus Hook (306 miles). The second line is proposed from SPLP's Delmont Station, in Westmoreland County, Pennsylvania, to the Marcus Hook facility, paralleling the initial line for approximately 255 miles.

The Project will be reviewed under Section 106 of the National Historic Preservation Act of 1966, as amended (NHPA), pursuant to the Corps implementing regulations found at 33 CFR Part 325 Appendix C. Although we have not yet determined the extent of our Section 106 scope of analysis, or Permit Area, we expect that the proposed Project will impact Waters of the US (WOUS) regulated by Corps and will require authorization under Section 10 of the River and Harbors Act (33 U.S.C. Part 401 et. Seq.) and Section 404 of the Clean Water Act (33 U.S.C. Part 1344).

The proposed Project may also require permission to modify or alter locally or federally maintained Corps Civil Works projects such as existing flood control reservoirs and/or levee facilities. The authority to grant permission for temporary or permanent

alterations to a Corps federally authorized civil works project is contained in Section 14 of the Rivers and Harbors Act and codified in 33 U.S.C. 408 (Section 408). The portions of the Project that will be subject to Section 408 evaluation will be reviewed under Section 106 of the NHPA pursuant to the Advisory Council on Historic Preservation's implementing regulations found at 36 CFR Part 800.

We plan to coordinate on the Project pursuant to both Section 404 of the Clean Water Act and Section 408 as we receive additional information. However, please note that our respective reviews under Section 404 and Section 408 will be coordinated separately and result in independent decisions pursuant to Corps regulations.

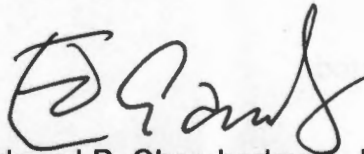

This letter and request for participation has been provided to the following federally recognized Tribal Nations:

Absentee Shawnee Tribe of Oklahoma  
Cayuga Nation of New York  
Delaware Nation  
Delaware Tribe of Oklahoma  
Eastern Shawnee Tribe of Oklahoma  
Narragansett Indian Tribe  
Oneida Tribe of Indians of Wisconsin

# Pennsylvania Pipeline Project

Sunoco Logistics

**Mariner East Pipeline - Pennsylvania Pipeline Project**

Sunoco Pipeline, L.P. (SPLP) proposes to construct and operate the Pennsylvania Pipeline Project (Project) that would expand existing pipeline systems to provide natural gas liquid (NGL) transportation of up to 350,000 barrels per day. The Project involves the installation of approximately two parallel pipelines within a 306-mile, 50-foot-wide right-of-way (ROW) from Houston, Washington County, Pennsylvania to SPLP's Marcus Hook facility in Delaware County, Pennsylvania with the purpose of interconnecting with existing SPLP Mariner East pipelines. A 20-inch diameter pipeline would be installed within the ROW from Houston to Marcus Hook (306 miles) and a second, up to 20-inch diameter pipeline, will also be installed in the same ROW. The second line is proposed to be installed from SPLP's Delmont Station, Westmoreland County, Pennsylvania to the Marcus Hook facility, paralleling the initial line for approximately 255 miles. In addition to the pipelines, modification and construction of new above ground facilities would be required to meet Project goals.

**BALTIMORE, MD 21201**

**JUN 02 2016**

Operations Division

Mr. Arthur Raymond (Ray) Halbritter  
Chief, Oneida Indian Nation  
2037 Dream Catcher Plaza  
Oneida, NY 13420

Dear Mr. Halbritter:

The U.S. Army Corps of Engineers (Corps) is in receipt of a permit application for the proposed Pennsylvania Pipeline Project (Project) extending from Houston, in Washington County, to the Marcus Hook Facility in Delaware County, Pennsylvania. The purpose of the Project is to interconnect with the existing Mariner East Pipelines, which will increase natural gas liquid transportation up to 350,000 barrels per day. The applicant for this project is Sunoco Pipeline, L.P. (SPLP).

The proposed Project route will cross the areas of responsibility (AOR) for the Corps districts in Pittsburgh, Baltimore, and Philadelphia. Each Corps district will review and make a permit decision within their respective AOR; however, Ms. Nicole Cooper Minnichbach will be your contact for any tribal concerns over the entire Project.

The Project involves the installation of two parallel pipelines within a 50-foot-wide right-of-way. The first is a 20-inch diameter pipeline proposal from Houston to Marcus Hook (306 miles). The second line is proposed from SPLP's Delmont Station, in Westmoreland County, Pennsylvania, to the Marcus Hook facility, paralleling the initial line for approximately 255 miles.

The Project will be reviewed under Section 106 of the National Historic Preservation Act of 1966, as amended (NHPA), pursuant to the Corps implementing regulations found at 33 CFR Part 325 Appendix C. Although we have not yet determined the extent of our Section 106 scope of analysis, or Permit Area, we expect that the proposed Project will impact Waters of the US (WOUS) regulated by Corps and will require authorization under Section 10 of the River and Harbors Act (33 U.S.C. Part 401 et. Seq.) and Section 404 of the Clean Water Act (33 U.S.C. Part 1344).

The proposed Project may also require permission to modify or alter locally or federally maintained Corps Civil Works projects such as existing flood control reservoirs and/or levee facilities. The authority to grant permission for temporary or permanent

alterations to a Corps federally authorized civil works project is contained in Section 14 of the Rivers and Harbors Act and codified in 33 U.S.C. 408 (Section 408). The portions of the Project that will be subject to Section 408 evaluation will be reviewed under Section 106 of the NHPA pursuant to the Advisory Council on Historic Preservation's implementing regulations found at 36 CFR Part 800.

We plan to coordinate on the Project pursuant to both Section 404 of the Clean Water Act and Section 408 as we receive additional information. However, please note that our respective reviews under Section 404 and Section 408 will be coordinated separately and result in independent decisions pursuant to Corps regulations.

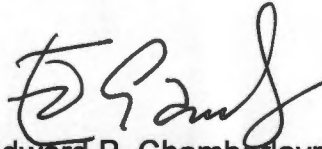

This letter and request for participation has been provided to the following federally recognized Tribal Nations:

Absentee Shawnee Tribe of Oklahoma  
Cayuga Nation of New York  
Delaware Nation  
Delaware Tribe of Oklahoma  
Eastern Shawnee Tribe of Oklahoma  
Narragansett Indian Tribe

## Pennsylvania Pipeline Project

Sunoco Logistics

**Mariner East Pipeline - Pennsylvania Pipeline Project**  
Sunoco Pipeline, L.P. (SPLP) proposes to construct and operate the Pennsylvania Pipeline Project (Project) that would expand existing pipeline systems to provide natural gas liquid (NGL) transportation of up to 350,000 barrels per day. The Project involves the installation of approximately two parallel pipelines within a 306-mile, 50-foot-wide right-of-way (ROW) from Houston, Washington County, Pennsylvania to SPLP's Marcus Hook facility in Delaware County, Pennsylvania with the purpose of interconnecting with existing SPLP Mariner East pipelines. A 20-inch diameter pipeline would be installed within the ROW from Houston to Marcus Hook (306 miles) and a second, up to 20-inch diameter pipeline, will also be installed in the same ROW. The second line is proposed to be installed from SPLP's Delmont Station, Westmoreland County, Pennsylvania to the Marcus Hook facility, paralleling the initial line for approximately 255 miles. In addition to the pipelines, modification and construction of new above ground facilities would be required to meet Project goals.

BALTIMORE, MD 21201**

**JUN 02 2016**

**Operations Division**

**Mr. Clint Halftown  
Chief, Cayuga Nation of New York  
P.O. Box 803  
Seneca Falls, NY 13148**

**Dear Mr. Halftown:**

The U.S. Army Corps of Engineers (Corps) is in receipt of a permit application for the proposed Pennsylvania Pipeline Project (Project) extending from Houston, in Washington County, to the Marcus Hook Facility in Delaware County, Pennsylvania. The purpose of the Project is to interconnect with the existing Mariner East Pipelines, which will increase natural gas liquid transportation up to 350,000 barrels per day. The applicant for this project is Sunoco Pipeline, L.P. (SPLP).

The proposed Project route will cross the areas of responsibility (AOR) for the Corps districts in Pittsburgh, Baltimore, and Philadelphia. Each Corps district will review and make a permit decision within their respective AOR; however, Ms. Nicole Cooper Minnichbach will be your contact for any tribal concerns over the entire Project.

The Project involves the installation of two parallel pipelines within a 50-foot-wide right-of-way. The first is a 20-inch diameter pipeline proposal from Houston to Marcus Hook (306 miles). The second line is proposed from SPLP's Delmont Station, in Westmoreland County, Pennsylvania, to the Marcus Hook facility, paralleling the initial line for approximately 255 miles.

The Project will be reviewed under Section 106 of the National Historic Preservation Act of 1966, as amended (NHPA), pursuant to the Corps implementing regulations found at 33 CFR Part 325 Appendix C. Although we have not yet determined the extent of our Section 106 scope of analysis, or Permit Area, we expect that the proposed Project will impact Waters of the US (WOUS) regulated by Corps and will require authorization under Section 10 of the River and Harbors Act (33 U.S.C. Part 401 et. Seq.) and Section 404 of the Clean Water Act (33 U.S.C. Part 1344).

The proposed Project may also require permission to modify or alter locally or federally maintained Corps Civil Works projects such as existing flood control reservoirs and/or levee facilities. The authority to grant permission for temporary or permanent

alterations to a Corps federally authorized civil works project is contained in Section 14 of the Rivers and Harbors Act and codified in 33 U.S.C. 408 (Section 408). The portions of the Project that will be subject to Section 408 evaluation will be reviewed under Section 106 of the NHPA pursuant to the Advisory Council on Historic Preservation's implementing regulations found at 36 CFR Part 800.

We plan to coordinate on the Project pursuant to both Section 404 of the Clean Water Act and Section 408 as we receive additional information. However, please note that our respective reviews under Section 404 and Section 408 will be coordinated separately and result in independent decisions pursuant to Corps regulations.

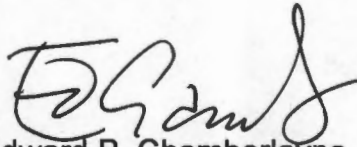

This letter and request for participation has been provided to the following federally recognized Tribal Nations:

**JUN 02 2016**

Operations Division

Mr. Maurice A. John, Sr.  
President, Seneca Nation of Indians  
PO Box 231  
Salamanca, NY 14779

Dear Mr. John:

The U.S. Army Corps of Engineers (Corps) is in receipt of a permit application for the proposed Pennsylvania Pipeline Project (Project) extending from Houston, in Washington County, to the Marcus Hook Facility in Delaware County, Pennsylvania. The purpose of the Project is to interconnect with the existing Mariner East Pipelines, which will increase natural gas liquid transportation up to 350,000 barrels per day. The applicant for this project is Sunoco Pipeline, L.P. (SPLP).

The proposed Project route will cross the areas of responsibility (AOR) for the Corps districts in Pittsburgh, Baltimore, and Philadelphia. Each Corps district will review and make a permit decision within their respective AOR; however, Ms. Nicole Cooper Minnichbach will be your contact for any tribal concerns over the entire Project.

The Project involves the installation of two parallel pipelines within a 50-foot-wide right-of-way. The first is a 20-inch diameter pipeline proposal from Houston to Marcus Hook (306 miles). The second line is proposed from SPLP's Delmont Station, in Westmoreland County, Pennsylvania, to the Marcus Hook facility, paralleling the initial line for approximately 255 miles.

The Project will be reviewed under Section 106 of the National Historic Preservation Act of 1966, as amended (NHPA), pursuant to the Corps implementing regulations found at 33 CFR Part 325 Appendix C. Although we have not yet determined the extent of our Section 106 scope of analysis, or Permit Area, we expect that the proposed Project will impact Waters of the US (WOUS) regulated by Corps and will require authorization under Section 10 of the River and Harbors Act (33 U.S.C. Part 401 et. Seq.) and Section 404 of the Clean Water Act (33 U.S.C. Part 1344).

The proposed Project may also require permission to modify or alter locally or federally maintained Corps Civil Works projects such as existing flood control reservoirs and/or levee facilities. The authority to grant permission for temporary or permanent

alterations to a Corps federally authorized civil works project is contained in Section 14 of the Rivers and Harbors Act and codified in 33 U.S.C. 408 (Section 408). The portions of the Project that will be subject to Section 408 evaluation will be reviewed under Section 106 of the NHPA pursuant to the Advisory Council on Historic Preservation's implementing regulations found at 36 CFR Part 800.

We plan to coordinate on the Project pursuant to both Section 404 of the Clean Water Act and Section 408 as we receive additional information. However, please note that our respective reviews under Section 404 and Section 408 will be coordinated separately and result in independent decisions pursuant to Corps regulations.

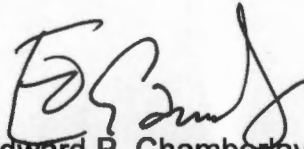

This letter and request for participation has been provided to the following federally recognized Tribal Nations:

Absentee Shawnee Tribe of Oklahoma  
Cayuga Nation of New York

**DEPARTMENT OF THE ARMY  
BALTIMORE DISTRICT, CORPS OF ENGINEERS  
10 S. HOWARD STREET  
BALTIMORE, MD 21201**

**JUN 02 2016**

Operations Division

Mr. Ron Sparkman  
Chairman, Shawnee Tribe  
29 South 69a Highway  
Miami, OK 74354

Dear Mr. Sparkman:

The U.S. Army Corps of Engineers (Corps) is in receipt of a permit application for the proposed Pennsylvania Pipeline Project (Project) extending from Houston, in Washington County, to the Marcus Hook Facility in Delaware County, Pennsylvania. The purpose of the Project is to interconnect with the existing Mariner East Pipelines, which will increase natural gas liquid transportation up to 350,000 barrels per day. The applicant for this project is Sunoco Pipeline, L.P. (SPLP).

The proposed Project route will cross the areas of responsibility (AOR) for the Corps districts in Pittsburgh, Baltimore, and Philadelphia. Each Corps district will review and make a permit decision within their respective AOR; however, Ms. Nicole Cooper Minnichbach will be your contact for any tribal concerns over the entire Project.

The Project involves the installation of two parallel pipelines within a 50-foot-wide right-of-way. The first is a 20-inch diameter pipeline proposal from Houston to Marcus Hook (306 miles). The second line is proposed from SPLP's Delmont Station, in Westmoreland County, Pennsylvania, to the Marcus Hook facility, paralleling the initial line for approximately 255 miles.

The Project will be reviewed under Section 106 of the National Historic Preservation Act of 1966, as amended (NHPA), pursuant to the Corps implementing regulations found at 33 CFR Part 325 Appendix C. Although we have not yet determined the extent of our Section 106 scope of analysis, or Permit Area, we expect that the proposed Project will impact Waters of the US (WOUS) regulated by Corps and will require authorization under Section 10 of the River and Harbors Act (33 U.S.C. Part 401 et. Seq.) and Section 404 of the Clean Water Act (33 U.S.C. Part 1344).

The proposed Project may also require permission to modify or alter locally or federally maintained Corps Civil Works projects such as existing flood control reservoirs and/or levee facilities. The authority to grant permission for temporary or permanent

alterations to a Corps federally authorized civil works project is contained in Section 14 of the Rivers and Harbors Act and codified in 33 U.S.C. 408 (Section 408). The portions of the Project that will be subject to Section 408 evaluation will be reviewed under Section 106 of the NHPA pursuant to the Advisory Council on Historic Preservation's implementing regulations found at 36 CFR Part 800.

We plan to coordinate on the Project pursuant to both Section 404 of the Clean Water Act and Section 408 as we receive additional information. However, please note that our respective reviews under Section 404 and Section 408 will be coordinated separately and result in independent decisions pursuant to Corps regulations.

## Pennsylvania Pipeline Project

Sunoco Logistics

**Mariner East Pipeline - Pennsylvania Pipeline Project**  
Sunoco Pipeline, L.P. (SPLP) proposes to construct and operate the Pennsylvania Pipeline Project (Project) that would expand existing pipeline systems to provide natural gas liquid (NGL) transportation of up to 350,000 barrels per day. The Project involves the installation of approximately two parallel pipelines within a 306-mile, 50-foot-wide right-of-way (ROW) from Houston, Washington County, Pennsylvania to SPLP's Marcus Hook facility in Delaware County, Pennsylvania with the purpose of interconnecting with existing SPLP Mariner East pipelines. A 20-inch diameter pipeline would be installed within the ROW from Houston to Marcus Hook (306 miles) and a second, up to 20-inch diameter pipeline, will also be installed in the same ROW. The second line is proposed to be installed from SPLP's Delmont Station, Westmoreland County, Pennsylvania to the Marcus Hook facility, paralleling the initial line for approximately 255 miles. In addition to the pipelines, modification and construction of new above ground facilities would be required to meet Project goals.

Nicole,

We charge a fee for reviewing all non-governmental entities projects such as pipelines, cell towers, and housing developments that apply for Federal Funds or Federally Regulated . We would need to arrange for this payment before a review will be provided.

Susan Bachor

Delaware Tribe Historic Preservation Representative

**Subject:** Sunoco Pennsylvania Pipeline

Good afternoon everyone,

I just wanted to send you an informal email letting you know that the Baltimore District (Lead), the Philadelphia District and the Pittsburgh District have selected me to be the

Tribal Liaison for the Sunoco Pennsylvania Pipeline Project, which proposes to extend from Houston, in Washington County to the Marcus Hook Facility in Delaware County, Pennsylvania (Attachment). A letter signed by the Baltimore District Commander was just sent out today to Tribal Leaders, with a copy furnished to the Tribal Nations Section 106 Coordinators/THPOs/Cultural Directors introducing the project, which has just been formally submitted to USACE as an application for a permit.

The USACE is the Lead Federal Agency for this project; therefore, the project will be reviewed under Section 106 of the NHPA, pursuant to the USACE implementing regulations found at 33CFR325, Appendix C. At this time we have not yet determined the extent of our Section 106 scope of analysis. Also, since the proposed project will require permission for alterations to a Corps federally authorized civil works project (Raystown Lake and Loyalhanna), we are also going to be reviewing sections of the project under Section 408, using the 36CFR800 implementing regulations. I will be coordinating both efforts.

At this time, it is my understanding that a cultural resources survey, which includes both above and below ground resources, has been conducted on all high probability areas along the proposed alignment. I have been told that the reports will be submitted to me, to forward to all of you, on DVD. As soon as I receive the disks I will send them to you.

Other information will be submitted for your review and comment as they are available throughout this process.

Once we have reviewed the information, I can schedule a teleconference for those who want to discuss the project and the results of the cultural resources investigation. Please feel free to contact me anytime.

Nicole Cooper Minnichbach  
Cultural Resource Specialist and Tribal Liaison (CRSTL)  
US Army Corps of Engineers Philadelphia District  
(O) 215-656-6556  
(M) 215-834-1065

Subject: RE: [EXTERNAL] RE: Pennsylvania Pipeline Determination of Effects Meeting in Harrisburg

Good Morning All,

I have heard from several of you, Bonney, Susan and Robin that due to prior commitments, were unable to call in to the Determination of Effects Meeting yesterday morning that was held in Harrisburg at the PHMC for sites located during investigations for the Sunoco Pennsylvania Pipeline Project (PPP).

The Determination of effects meeting is a PASHPO meeting (usually just internal to their office) and not a USACE one (so I was unable to postpone or reschedule). However, I will set up a teleconference within the next few weeks for all of us to discuss the investigations, the sites that were found, and the outcome of this meeting. I would like to hear from you regarding site eligibility, avoidance measures, and the need for further investigation.

At this time I can tell you that most sites that were determined eligible will be either avoided, or skirted with the majority of the site remaining intact. Other sites that may have larger impacts will need additional testing.

I will pull together some information for all of you that includes a meeting briefing and a spreadsheet discussing each site's eligibility determination and the need for additional work.

I will send out a doodle poll to check for teleconference availability.

Please let me know if you were able to use the Google Earth files that I sent. I have found it useful for site location in proximity to the proposed route.

If you have any other questions or inquiries please feel free to email me or call me on my mobile at 215-834-1065.

Respectfully,

Nicole Cooper Minnichbach

Cultural Resource Specialist and Tribal Liaison (CRSTL)

Hi, Nikki,

I am sorry but I teach on Mondays and Wednesdays. I thought I would have time to pull away but that obviously didn't happen. Can we reschedule?

Susan

Good morning

We opened the conference bridge for 15 minutes and it now is closed since no one called in.

If anyone wants to call please email me and we will try to open the conference bridge again.

Thank you.

Subject: Pennsylvania Pipeline Determination of Effects Meeting in Harrisburg

Good Afternoon to you All,

The Pennsylvania State Historic Preservation Office is having a Determination of Effects meeting for sites located during the cultural resource investigation for the Sunoco Pennsylvania Pipeline Project at their office located on the 2nd floor of 400 North Street, Harrisburg, PA on Monday, September 12, 2016 at 10 am. I would like to invite you to attend this meeting personally, or via phone. Please let me know if you plan to attend the meeting or if you will be calling in.

The call information is:

PIN: 234166  
Bridge Number: 17176124733  
Toll-free: 18557501027

I also wanted to send along some Google Earth files that show all of the site locations, as well as the proposed pipeline. These files should be useful with the determination of effects meeting as well as for project review. At this time you all should have a DVD with both the above-ground and below-ground investigations. Please let me know if you require any additional information to assist with your review.

If you are unable to attend the September 12th meeting/teleconference, I will be scheduling a follow-up teleconference so that we can discuss the project, the results of the DOE meeting, and the cultural resource investigations. I will send out a doodle poll next week to assist with scheduling.

Thank you for your assistance with this project review. And please feel free to contact me at any time.

Respectfully,

Nicole Cooper Minnichbach
