Archery Trail

TIOGA-HAMMOND & COWANESQUE LAKES

The trail is an easy hike along a 1-mile loop. The 18-shot archery course offers a variety of shot angles, ranges and obstacles to test your skill. Archers have used the course to sharpen their skill and prepare for bow season for many years. Are you ready to win bragging rights by inviting fellow archers to a friendly competition?

Archery Range & Trail Safety

- Only point your bow and arrow in a safe direction.
- Wear an armguard and finger protection.
- Keep arrows in your quiver until it's your turn to shoot.
- Be sure of your target and what is in front of it, immediately behind it and beyond it.
- Never shoot over a ridge.
- Avoid dry firing a bow (releasing the bowstring without a nocked arrow).
- Do not shoot an arrow straight up in the air.
- Use a bow-stringer for stringing longbows and recurve bows.
- Only field points are authorized for use throughout the course.
- Keep your emotions under control, and think about safety first.
- Do not drink alcohol or take mood-altering drugs.

Be a Good Sport in the Outdoors

Practice good outdoor ethics so everyone can enjoy their visit, whether they're here to practice archery, listen for wildlife or gaze at nature's beauty. Excessive noise, uncontrolled pets and damaged surroundings take away from the natural appeal of the outdoors.
