

Public Scoping Meeting

Bureau of Engraving and Printing Replacement Currency Production Facility

December 3, 2019 | 6:00 pm to 8:00 pm
Beltsville Agricultural Research Center
Building 003 Auditorium, 10300 Baltimore Ave. Beltsville, MD

Meet with Bureau of Engraving and Printing (BEP) and project staff to ask questions and learn more about the Proposed Action

The Department of the Treasury's BEP is responsible for manufacturing US currency notes at the request of the Federal Reserve Board. BEP's Washington, DC production facility has served in this capacity for more than 100 years, but its age and design now limit BEP's ability to modernize its operations.

BEP is proposing to construct and operate a new, replacement currency production facility at the Beltsville Agricultural Research Center (BARC) in Prince George's County, Maryland. An Environmental Impact Statement (EIS) is being prepared to analyze the potential impacts of BEP's Proposed Action.

The Public Scoping Meeting is the first opportunity for interested members of the public to learn more about the Proposed Action and the associated EIS process.

How to submit comments:

1. Attend the scoping meeting and provide written or oral comments
2. Email comments to: BEP-EIS@usace.army.mil
3. Mail written comments to:
Mr. Harvey Johnson
US Army Corps of Engineers, Baltimore District
Programs and Project Management Division
2 Hopkins Plaza, 10th Floor
Baltimore, MD 21201

Comments accepted until December 15, 2019
