

**DRY LAND APPROVED JURISDICTIONAL DETERMINATION FORM<sup>1</sup>**  
**U.S. Army Corps of Engineers**

This form should be completed by following the instructions provided in Section IV of the JD Form Instructional Guidebook.

**SECTION I: BACKGROUND INFORMATION**

**A. REPORT COMPLETION DATE FOR APPROVED JURISDICTIONAL DETERMINATION (JD):** 16 June 2020

**B. DISTRICT OFFICE, FILE NAME, AND NUMBER:** NAB-2020-60490 (Merritt/ Small Pond)

**C. Maryland** County/parish/borough: Baltimore County City: Owings Mills

Center coordinates of site (lat/long in degree decimal format): Lat. 39.423398 °, Long. -76.809451 °  
Universal Transverse Mercator:

Name of nearest waterbody: Red Run

Name of watershed or Hydrologic Unit Code (HUC): 02060003

- Check if map/diagram of review area is available upon request.
- Check if other sites (e.g., offsite mitigation sites, disposal sites, etc...) are associated with this action and are recorded on a different JD form.

**D. REVIEW PERFORMED FOR SITE EVALUATION (CHECK ALL THAT APPLY):**

- Office (Desk) Determination. Date:
- Field Determination. Date(s): 26 May 2020

**SECTION II: SUMMARY OF FINDINGS**

**A. RHA SECTION 10 DETERMINATION OF JURISDICTION.**

There **are no** "navigable waters of the U.S." within Rivers and Harbors Act (RHA) jurisdiction (as defined by 33 CFR part 329) in the review area.

**B. CWA SECTION 404 DETERMINATION OF JURISDICTION.**

There **are no** "waters of the U.S." within Clean Water Act (CWA) jurisdiction (as defined by 33 CFR part 328) in the review area.

**SECTION III: DATA SOURCES.**

**A. SUPPORTING DATA. Data reviewed for JD (check all that apply - checked items shall be included in case file and, where checked and requested, appropriately reference sources below):**

- Maps, plans, plots or plat submitted by or on behalf of the applicant/consultant: Seven documents included in case file
- Data sheets prepared/submitted by or on behalf of the applicant/consultant.
- Office concurs with data sheets/delineation report.
- Office does not concur with data sheets/delineation report.
- Data sheets prepared by the Corps:
- U.S. Geological Survey Hydrologic Atlas:
- USGS NHD data.
- USGS 8 and 12 digit HUC maps.
- U.S. Geological Survey map(s). Cite scale & quad name:
- USDA Natural Resources Conservation Service Soil Survey. Citation:
- National wetlands inventory map(s). Cite name: NAB-2020-60490.20200616.NWI.Map.pdf
- State/Local wetland inventory map(s): NAB-2020-60490.20200616.MD.DNR.Wetlands.Map.pdf
- FEMA/FIRM maps:
- 100-year Floodplain Elevation is: (National Geodetic Vertical Datum of 1929)
- Photographs:  Aerial (Name & Date):
- or  Other (Name & Date):
- Previous determination(s). File no. and date of response letter:
- Applicable/supporting case law:
- Applicable/supporting scientific literature:
- Other information (please specify): Voelker060820ltr.pdf

<sup>1</sup> This form is for use only in recording approved JDs involving dry land. It extracts the relevant elements of the longer approved JD form in use since 2007 for aquatic areas and adds no new fields.

**B. REQUIRED ADDITIONAL COMMENTS TO SUPPORT JD. EXPLAIN RATIONALE FOR DETERMINATION THAT THE REVIEW AREA ONLY INCLUDES DRY LAND:** The Corps received a request for a Department of the Army (DA) authorization to construct a MD-378 dry extended pond, measuring 200 foot long by 150 foot wide (30,000 square feet), for storm event quantity management in a Use III Stream watershed near the intersection of Dolfield Boulevard and Red Run Boulevard, in Owings Mills, Baltimore County, Maryland. The information provided in the application and additional documents listed above, supplied by the consultant, state the proposed project will have no impacts to streams or wetlands. The Corps conducted a site visit on 26 May 2020, and walked the entire property to confirm the review area only includes dry land. The Corps observed an ephemeral drainage channel/ditch in the northwest portion of the site at the toe of a fill slope. However, based on field observations and information submitted by the applicant, the Corps has determined this is a man-made drainage channel/ditch was constructed in uplands to convey stormwater from Red Run Boulevard. Based on the documentation provided by the consultant and the Corps observations during the 26 May 2020 site visit, the Corps has determined the review area includes only dry land and no jurisdictional waters of the U.S.
