

# UNDER MAINTENANCE!

The staff at Raystown Lake would like to apologize for the difficulties users are experiencing while attempting to reserve campsites at Seven Points campground using the independent reservation service Recreation.gov. Unfortunately, Recreation.gov is the only way to reserve a campsite. Our staff is aware of the problem, and we are working diligently with the national team of system administrators to resolve this issue and prevent abuse of the system. Thank you for your continued patience, we look forward to seeing you at Raystown this summer!

**For further questions, call: (814) 658-6810**
