- Childcare and elder care subsidies and dependent care FSAs

The mission of the U.S. Army Corps of Engineers' Regulatory Program is to protect the nation's aquatic resources and navigable capacity while allowing economic development through fair and balanced decisions.

Our team consists of 1,100 civilian employees with a wide variety of STEM degrees, such as environmental science, geographic information systems, soil science, archaeology and environmental policy.

We are seeking dedicated, highly qualified, recent graduates and experienced professionals to join our team of regulators. If you are looking for new challenges, meaningful work, and are passionate about public service and aquatic resource management, sign up for this recruitment event to learn more about job opportunities and apply for one of our openings.

Regulatory Program positions now open at Grades-05, 07/09/11 & 12:

Biologist (0401)  
 Ecologist (0408)  
 Geologist (01350)  
 Physical Scientist (1301)  
 Soil Scientist (0470)

Geographer (0150)  
 Environmental Engineer (0819)  
 Civil Engineer (0810)  
 Archaeology (0193), and more

We have job opportunities all over the nation
