

Proposed Action/ Preferred Alternative

Treasury proposes to design and construct a more efficient, modern Currency Production Facility at the Beltsville Agricultural Research Center (BARC) on land authorized for transfer under the Agriculture Improvement Act of 2018 (aka, the 2018 Farm Bill).

Should Treasury implement the Proposed Action, construction would start in 2021/2022 and be followed by the phased transition of personnel and operations from the Bureau of Engraving and Printing's (BEP's) current Washington, DC Facility from 2025 to 2029.

About the Proposed Action

- Manufacturing, warehouse, storage, security, and administrative operations
- Development footprint of approximately 1 million square feet
- Building height range of 40 to 50 feet
- On-site air and wastewater treatment
- 1,600 employees working in shifts (6:30 am, 2:30 pm, and 10:30 pm)
- Site access from new entrance road off of Powder Mill Road
- Enhances and incorporates forest buffer zones
- Low impact development/green infrastructure techniques and designs
