

SM-1 Project Update, January 22, 2019

Dear SM-1 Stakeholders,

The US Army Corps of Engineers would like to thank everyone that came to our recent public meetings regarding the Draft Environmental Assessment (EA) for the decommissioning and dismantling of the SM-1 deactivated nuclear power plant at Fort Belvoir. We appreciate the feedback we got from the members of the community who were able to come and other stakeholders we've heard from throughout this process.

We wanted to share with those who attended the meetings, as well as those who may have not been able to join us, that our project website, www.nab.usace.army.mil/SM-1/, has been updated with the presentation and informational posters from last week's meetings. These files are in addition to the Draft EA and Draft Finding of No Significant Impact (FNSI) documents, existing project information, historical photos, and previous stakeholder updates regarding the SM-1 project.

As a reminder, the window for public review and comment of the Draft EA and Draft FNSI is still open and will remain open through end of January. Comments can be submitted via e-mail to cenab-cc@usace.army.mil or by written mail to:

Brenda Barber, P.E.
USACE Project Manager
c/o AECOM
4840 Cox Road, Glen Allen, VA 23060

Thank you all again for choosing to be a part of this process with us as we continue working through the planning phase of the decommissioning and dismantling of the deactivated SM-1. The team still anticipates awarding a decommissioning contract for the work around summer 2020, with mobilization work on site beginning later in 2021.

If you have any questions, feedback or information you'd like to share with us, please feel free to e-mail me or call our Corporate Communication team at 410-962-2809.
