

CAMBRIDGE HARBOR
DORCHESTER COUNTY, MARYLAND

CONDITION OF IMPROVEMENT, 30 SEPTEMBER 1990.

AUTHORIZATION: The project was approved by the River and Harbor Act of March 3, 1925 in accordance with House Document No. 210, 68th Congress, First Session. Modified on August 26, 1937 in accordance with the Rivers and Harbors Committee Document No. 7, 75th Congress, First Session; modified June 16, 1978 in accordance with House Document No. 355, 95th Congress, Second Session.

EXISTING PROJECT: Provides for a channel 150 feet wide and 25 feet deep at mean low water from that depth in the Choptank River for an approximate distance of 2,000 feet; then widen into a triangular shaped turning basin 25 feet deep, 1,400 feet long and 750 feet wide; then continue with a channel 150 feet wide and 14 feet deep to the Market Street Bridge over Cambridge Creek; then 100 feet wide and 14 feet deep to the head of the harbor with a turning basin of the same depth and irregular dimensions comprising approximately 2.4 acres; an anchorage basin 10 feet deep, 400 feet long and 175 feet wide on the west side of the channel; another basin of the same depth, 225 feet long, and 200 feet wide on the east side of the channel below the bridge; and a channel 60 feet wide and 7 feet deep from that depth in the Choptank River to a municipal boat basin north of the harbor entrance.

LOCAL COOPERATION: Fully complied with except local interests are to furnish spoil disposal areas for future maintenance.

PROGRESS OF WORK:

NEW WORK: The 1948 modification was deauthorized in December 1989.

MAINTENANCE: Studying various modifications to existing Federal project under the Water Resources Development Act of 1986.

COST OF NEW WORK: \$195,974.

RANGE OF TIDE: 1.7 feet.
