Play It...Safe!

- Obey posted rules, regulations and lake buoys!
- Look before you dive. It may be unsafe!
- Wear your PFD (life jacket)!
- Inspect your boat's safety equipment before starting out!
- Be familiar with the lake before boating at night!
- Don't drive your boat after drinking!
Alcohol and boating do not mix!
- Know how to swim! Beaches are unguarded!

About the Lake...

Miles of Shoreline 118
 Length of Lake (miles) 28
 Surface Acres (786 MSL) 8,300
 Total Project Acres 29,300

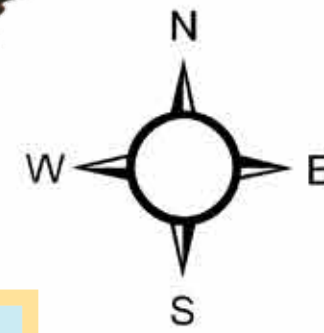

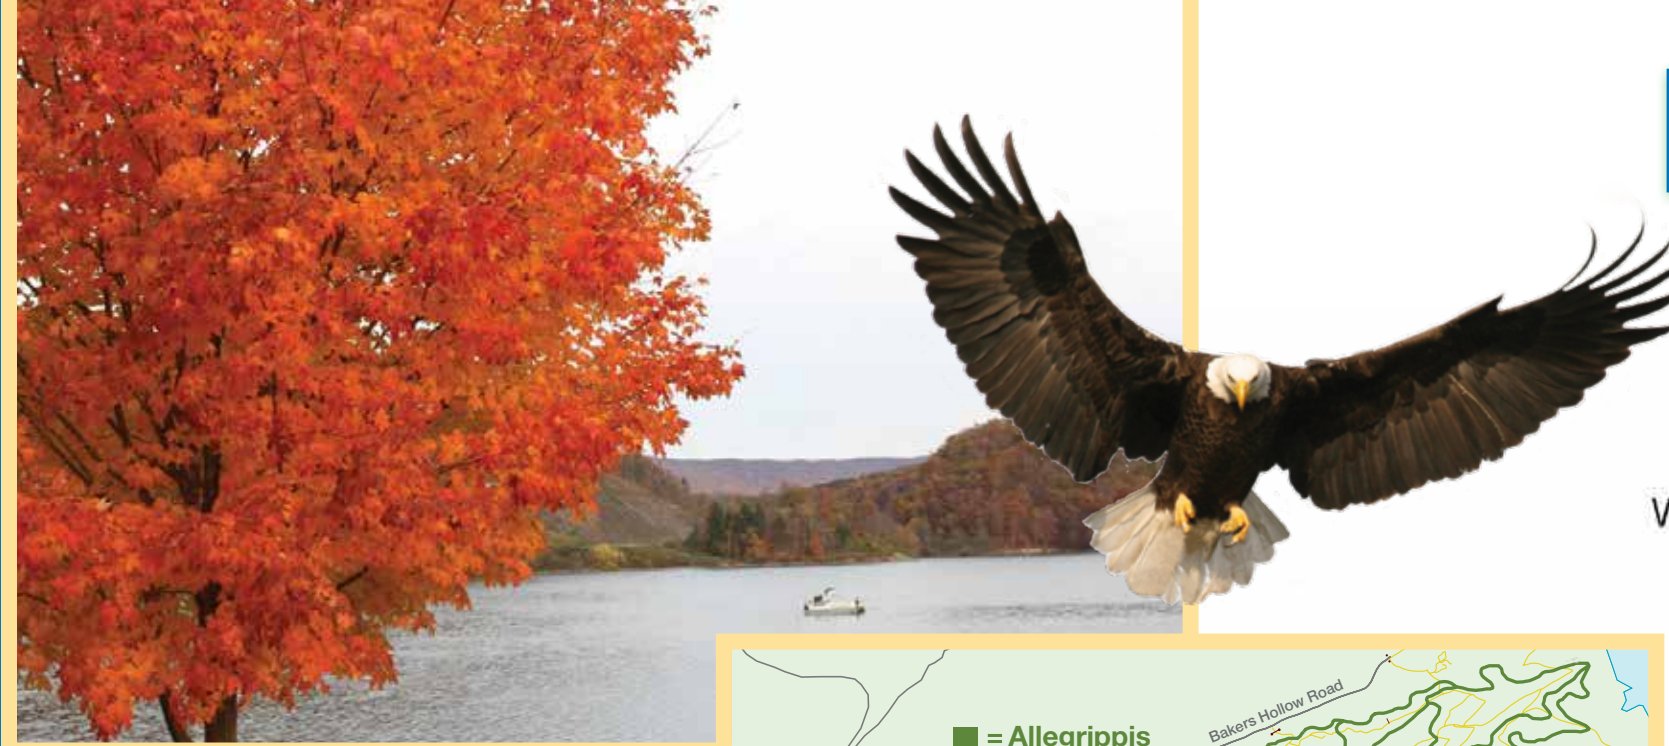

About the Dam...

Type Rolled Earth & Rock Embankment
 Length 1700 feet
 Height 225 feet
 Top Width 24 feet
 Base Width 1550 feet

About the Powerhouse...

Allegheny Electric Cooperative provides power for 8,500 households.

Seven Points Recreation Area

Adventures for All!

Stay It!

Stay overnight at Raystown. The Lodge and cabins at **Lake Raystown Resort** offer a relaxing waterfront experience or rent a luxury houseboat from **Seven Points Marina**, find your own cove, and **retreat from the world.**

Visit It!

If you're here for the day, explore the **Visitor Center**, picnic along the lake or reserve one of our **pavilions** for your family reunion or gathering. **Seven Points**, with its **sandy beach** and grassy sunning area, is a great place for kids of any age! A snack bar, showers, changing areas and playgrounds make your visit convenient and fun. **Tatman Run** is another great place to cool off on a hot summer day. Swim, boat or skip the waves on your personal watercraft.

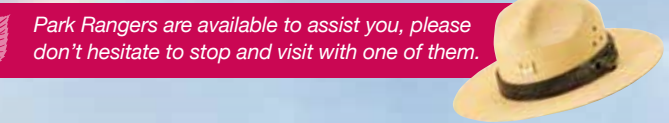

Enjoy It!

Seven Points Marina and the marina at **Lake Raystown Resort** are perfect for your boating and fishing needs...full service marinas, mooring slips, boat and equipment rentals, gasoline, and most anything boat related is available to you. If you just don't feel like cooking, restaurants at the **Seven Points Marina** and **Lake Raystown Resort** are open throughout the recreation season with a variety of meals for hungry visitors. The **Lighthouse**, a snackbar at the Seven Points Beach, is open for swimmers and boaters needing a quick lunch or a light snack.

Seven public boat launching ramps are available.

Raystown Lake welcomes persons with disabilities. To determine if a facility is accessible for your needs, please call (814) 658-3405, x0.

Park Rangers are available to assist you, please don't hesitate to stop and visit with one of them.

Hike It!

A hiker's paradise awaits you at Raystown Lake. Stroll on the **Greenside Pathway**, a recycled tire rubberized walking path that navigates through Seven Points. Walk softly through **Hillside Nature Trail** at Seven Points and be charmed by the music of the many songbirds. **Old Logger's Trail**, also at Seven Points, holds clues to times and ways of life from the past. **Riverside Nature Trail**, below the dam, follows along the riverbank. Finally, for the hardiest of souls, the 30 mile long **Terrace Mountain Trail** offers unparalleled rewards with spectacular views of the lake and hushed solitude.

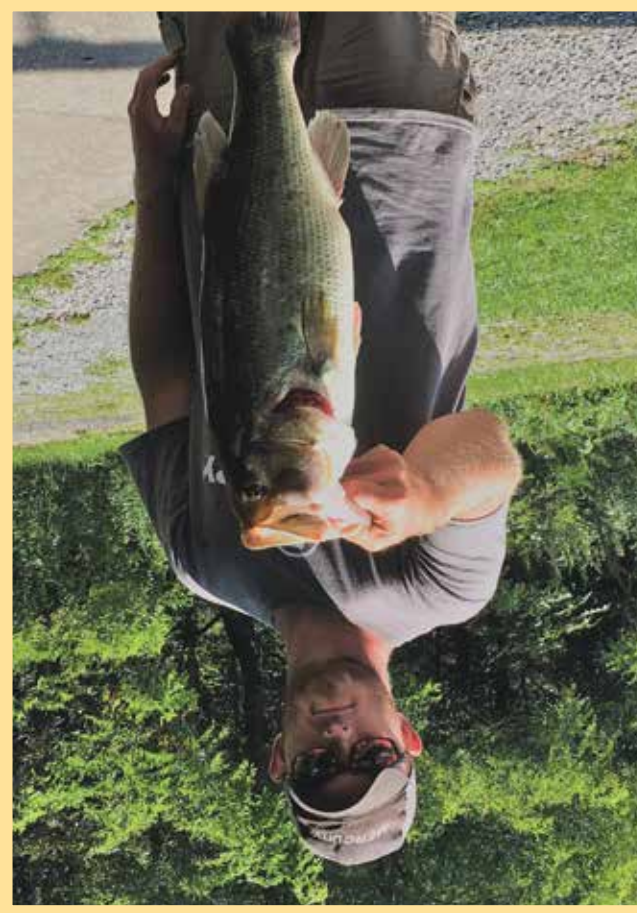

Your family pet is welcome. Be pet smart, clean up after your pet.

Bike It!

The **Allegrippis Trails** are thirty-two miles of buttery smooth, single track mountain bike trails designed and built by mountain bikers winding through some of the remote wilderness surrounding the lake. Trail difficulty ratings range from beginner to expert, and offer three stacked loops with endless combinations to explore. There is also a **skills park** in Seven Points to hone your skills before wandering out on the ATS. Managed in cooperation with the **Friends of Raystown**, both the trails and the skills park are open year round to all non-motorized users.

Fish It!

From the headwaters to the tailwaters of **Raystown Lake**, anglers will find more fishing opportunities than they can shake a rod at. There are plenty of places to **catch your limit** - shallow bays, quiet coves, and deep rocky points. Record striped bass stop by the Visitor Center in Seven Points to see a sampling of Raystown's fish species in the stairwell.

Striped, largemouth and smallmouth bass, muskie, walleye and crappie are some of the fish that you'll catch at Raystown Lake. Visit one of the local bait and tackle shops to find out what baits and spots are hot... and what's not!

Boat It!

Raystown Lake is the **best for boating**, whether you're in a house boat, pleasure boat, fishing boat, or something non-motorized. The lake offers **8,300 acres of crystal clear water** with 118 miles of picturesque shoreline. There are no limits on boat size or horsepower, yet there are many quiet coves with "no wake" areas for those fishing or enjoying wildlife and shore birds. Boats with factory installed sleeping facilities and U.S. Coast Guard approved pump-out only sanitation systems are welcome to spend the night on the lake.

Remember the 100 foot rule. Operate your boat at a slow, no wake speed within 100 feet of the shoreline and launches!

Hunt It!

A **variety of game** including rabbits, squirrels, grouse, pheasants, elusive turkeys, and prized **whitetail deer** are here to **challenge any hunter**. Most of Raystown is open to hunting. Recreation areas and waterway propagation areas are the exceptions.

Be Safe! Swim, boat and hunt at your own risk. All Pennsylvania fishing, boating and hunting laws apply.

Raystown Lake was constructed between 1968 and 1978 at a cost of \$76 million. Flood control is its primary purpose, but there are obvious benefits for recreation, fish and wildlife management, hydro-power, water quality and low flow enhancement downstream. The dam controls a drainage area of 960 square miles in the Juniata and Susquehanna River basins. Major flooding prevented in the region shows how effectively this facility protects millions of people.

The **beauty** of Central Pennsylvania can be yours year 'round at **Raystown Lake**, Hesston, Pennsylvania. Surrounded by lush forested ridges, the lake offers recreation for the entire family. **Boating, fishing, water skiing, mountain biking, camping, and picnicking**, along with hiking trails, **amphitheater programs**, and **waterfront lodging** are just some of Raystown Lake's recreational activities. **Relax and enjoy** nature the way you want to...exploring nature, riding the waves, or casting the line. Visit Raystown Lake...
